

New York City Transit (NYCT) is planning on constructing a communications tower (monopole) in Queens, NY. The monopole, FCC form 854 file number A1166130, will be located at NYCT 98th Street (Liberty) substation at the intersection of Liberty Avenue and 98th Street, Queens, NY 11417 (9724 Liberty Ave, Ozone Park, NY 11417). Coordinates of the location are 40°40'50.22" N, 73°50'28.77" W.

The project will consist of the construction of a 128' tall monopole with appurtenances and associated communications equipment shelter. The ground space will be developed within the substation property. The tower will be lit with dual red / white medium intensity strobe lights. Interested persons may review the application by going to www.fcc.gov/asr/applications and entering the FCC form 854 file number provided above. Interested persons may raise environmental concerns about the structure by filing a Request for Environmental Review with the Federal Communications Commission (FCC).

The FCC strongly encourages interested parties to file requests online, instructions for making such filings can be found at www.fcc.gov/asr/environmentalrequest; however, paper filings can be mailed to:
